ACADEMIC PROJECTS

Web Development (Dynamic)	<ul style="list-style-type: none">▪ Maxx Weather App<ul style="list-style-type: none">- Description: An interactive website for forecasting the weather (Temperature, Humidity and Wind Speed) of any region/city/country all over the world which our user wants to get as per typing the location.- Technology: HTML/CSS, JavaScript, JS Open Weather APIs- Role: Individual- Link and Result: https://mainak-maxxweatherapp-5f7334.netlify.app/
Front-End	<ul style="list-style-type: none">▪ VIFNX – Virtual Integrated Natural Fitness<ul style="list-style-type: none">- Description: Fitness is needed in day-to-day life with that in mind and as I myself is related to the field of fitness (Up. Brown in Karate-Shinkyokushin), Yoga, Body weight Exercises and Gym-Diets too so I thought to make a website to help everyone irrespective of age in this world of busy schedules pupils don't have time to go to gym physically so I have created this Exclusive Platform where anyone from anywhere can get trained according to their interests. Designed e-commerce website to assist customers to find the best fitness diets and overall solution in different location as per individual requirement for their problems in health I have created this exclusive platform where any can join as a trainee and trainer as well. With that I have provided a lot of Diets according to different interest and needs freely available on the website.- Technology: React-based, Html, Css(external), JavaScript, React(JS-Library), React-hooks, Modern CSS, Framer motion, Email.JS, DOM- Role: Individual- Link and Result: https://vifnx-academy.vercel.app/
